

ColorID Announces Exclusive Webinar: The Modern Campus – Solving Identity Challenges in Higher Education

Cornelius, North Carolina, U.S.A., March 6, 2025 --- ColorID, a leading provider of identity and credential management solutions, is excited to announce its upcoming webinar, The Modern Campus – Solving Identity Challenges in Higher Education, on Tuesday, March 18th at 2:00 pm EST. This exclusive session is designed to equip higher education professionals with the latest insights, trends, and best practices in campus identity management.

The webinar will explore how institutions can modernize their credentialing systems, enhance security, and improve student experiences through cutting-edge solutions. Attendees will gain valuable knowledge from industry experts, learn about innovative technologies, and discover practical strategies to optimize their campus identity programs.

Topics Include:

- Have the recent OneCard acquisitions generated questions and concerns? We have answers!
- Trends in campus identity and credential management
- Mobile and digital credential adoption
- Security and access control advancements
- Best practices for streamlining identity issuance and management

Who Should Attend?

Campus administrators, IT professionals, security personnel, and anyone involved in identity and credential management within higher education institutions will benefit from this session.
