ECCA WEBINAR

'EMPOWERING THE FUTURE OF STUDENT IDENTIFICATION WITH A FOCUS ON ESSENTIAL REGULATIONS'

WEDNESDAY 27TH NOVEMBER 2024
14.00 – 16.00 (CET)

The workshop will be hosted by the European Campus Card Association and will focus on the following:

- The adoption of the eIDAS regulation in 2014 allowed notified national electronic identification schemes (eIDs) to be used to access public services online across borders. As our digital landscape continues to evolve, the introduction of eIDAS 2.0 will embrace new types of electronic trust services, that will enable every European to have digital identity credentials that are recognised across the EU.

- The EU Digital Identity Wallets (EUDIW) will provide a safe, reliable, and private means of digital identification for everyone in Europe. Every Member State will provide at least one version of the wallet by 2026 to all its citizens, residents, and businesses allowing them to prove who they are, and safely store, share and sign important digital documents.

- The NIS2 Directive is the EU-wide legislation on cybersecurity. It provides legal measures to boost the overall level of cybersecurity in the EU. We will discuss what this directive means for your organization and how to protect your university with a focus on student identification.

- The workshop discussions will explore the history, significance and impact of these regulations on digital trust and security.

- It will delve into the practicalities of these regulations for HEIs and outline the steps being taken regarding the issuing of mobile credentials.

- The workshop will conclude with an open discussion and Q&A session.

AGENDA	
14.00	**Introduction by ECCA**
14.05	**'An overview of EUDIW & eIDAS2 and how it will transform educational credentials'** *Prof. Dr. Reinhard Posch, CIO, Ministry of Education, Austria*
14.25	**'Modern Cybersecurity. How to protect your university by complying with the latest NIS2 guidelines and ISO standards'** *Marcin Bryk, IT security and data protection specialist, ISO27001 Lead Auditor, OPTeam S.A.*
Break (14.45 – 14.55)	
14.55	**'Digital Identity & Mobile Credentials Use Cases and the practical implications of these regulations for HEIs'** • *Ludwig Maximilian University of Munich, Germany, (Alexander Loechel)* • *Utrecht University, Netherlands (Ecca Berhitu)*
15.25	**Q&A / OPEN DISCUSSION**
